Land owners, walkers, road users, gardeners, builders, anglers etc. please be aware of the invasive species **Japanese Knotweed.**

**Japanese Knotweed** has been found between Gneeveguilla and Rathmore, along the main road west of Shrone Cross and also east of Presbytery View.  
**Japanese Knotweed** is a non-native, invasive species, poses a huge environmental & economic threat. It spreads rapidly, particularly along watercourses, roadsides, railways and hedgerows. It can seriously and permanently damage buildings, roads and hard surfaces, damage flood defence structures and actually increases flood risks.

It grows vigourously, causing tall thickets and shading out the land under it. This means it outcompetes native plants and animals. It can cover over a river in a few weeks, block off the sunlight and nutrients from native species and native plants and is a huge threat to our rivers, water quality and environment. It can spread from tiny stem or root fragments that fall of the ground.

**The Law:**  
 Regulation 49 and 50 of the European Communities (Birds and Natural Habitats) Regulations 2011 make it an offence to:

Plant, disperse, allow dispersal or cause the spread of Japanese Knotweed.  
 Keep the plant in possession for purpose of sale, breeding, reproduction, propagation, distribution, introduction or release.

Keep anything from which the plant can be reproduced or propagated from without a granted licence.

Keep any vector material, in this case soil or soil taken from Japanese Knotweed, for the purpose of breeding, distribution, introduction or release.

**RATHMORE CREDIT UNION NATIONAL CREDIT UNION GR8 SAVERS**

**WEEK:** This week will run from 11<sup>th</sup> to the 17<sup>th</sup> May. The aim of the initiative is to encourage young Primary School children to develop a savings habit in their local Credit Union.

This year the "GR8 Savers week" is taking on a pirate theme by encouraging children to save their treasure in their Credit Union. The schools involved in the Saving Stamp Scheme will receive "Activity Sheets" which allow the children to have some fun and creativity. There are also information leaflets for parents on how to teach children to become **GR8 savers**.

To celebrate this week we will hold draws in both the Credit Union and in the Schools for all the little "GR8 Savers". The draws will take place on the following week.

As we are all only too aware of the financial problems of the past few years, now is the time to prepare our children for the future. We can do this by teaching them the benefits from saving, teach them how to make smart purchases and to know they can't immediately get everything they want. In the long term we can help them avoid getting into debt. It is important that parents play a role in assisting children to learn the art of saving which will stand to them long into their future.

Remember, the Credit Union is there to help you the member and not to make a profit at your expense. Use your Credit Union to make the most of your money. For information on the services and benefits in the Credit Union please ask in Office.
