

# *Together Again*

## *Liturgy Resource - Autumn 2021*

### **Prior to Sunday Oct 31<sup>st</sup>**

- Invite children/ adults/ schools to write poetry/draw pictures/ photos to decorate a space in the church – these give us a flavour of who we are as we come together again. These images can be put up from now on. **Theme: Together again...**
- Parish newsletters carry the guidelines of gathering again. Add a note of welcome to all who are coming back to Sunday Mass for the first time – as guidelines change, offer clarity that may comfort the fearful.
- Outdoor signs/ posters letting people know that parish life is resuming in all its fulness.

### **Focal Space**

As we come to celebrate, it can be helpful to create a focal space or image to enhance our attention. The past 18 months have been different and difficult for people in many ways. Our focal space is a way of holding all the experiences of life that have been part of our lives.

### **Creating a space**

*Create a path/road.....using a dark cloth, make some bends on the road ...at the beginning of the road, put March 2020.....towards the end of the road, put October 2021.*

*Here are some symbols you might like to add e.g.*

- 1. Sanitiser, facemask, 2 metre distance sign*
- 2. Image of a mobile or webcam, tablet, laptop*
- 3. Basket of worries....a couple of stones with words like fear, anxiety, loneliness, worry, illness, on them*
- 4. Some pinecones or conkers, autumn leaves....gifts of nature, beauty*
- 5. Candle – reminds us that the light of Christ has been guiding us all along the road.*

The focal space can be placed wherever is most suitable in the church. Perhaps it would work better for your space to create a poster with a road on it, marking the different elements on it.

## **Liturgy of the Word**

- **Homily Notes**

It is good to be physically together again. Over the past 18 months, personally and as a community we have been moving forward with hope, but at times it has felt like our hope, our resilience, had been stretched to the limit...While it feels like we have been paused and stopped in some ways, our lives – our stories – keep going. And we know suffering, uncertainty and heartache are all yet to be encountered – or encountered again – as our lives march on.

Over the next couple of weeks, we need to take time to catch up with each other....much has happened, some people have lost dearly loved members of their families, relatives, friends...there have been moments of great joy as families welcomed a new baby, as children received the sacraments, as younger children started school for the first time and older children moved into post-primary schools, as young people moved on to college and as couples married... there are also less known stories of a job that has been lost, a relationship that has fallen apart....Each of us carries within us a mixture of emotions and experiences from the past year. As we come together again, we will listen to each other's stories.....we draw back the veil on what has sustained us, what has nurtured us, what has given us a new sense of gratitude....what has been happening in our lives..

As a parish community, we wish to gather the stories of our parish over the past while....this is not just a passing Instagram moment. Life encompasses joy and sorrow, suffering and celebration. And life ultimately gives way to death, and death to life everlasting. As Christians, we are invited to take a long, loving view at the whole of life. That which is hard and heart wrenching doesn't negate that which is good and wonderful. All of it is life; all of it is what it means to be human. And we trust that God is there through it all, saying nothing of a happy or sad ending, but promising love and compassion and a life story beyond our wildest imaginings.
