### Reflection on Mothers Day:

There will be many tributes paid to mothers everywhere on Sunday, 10th March but all the accolades in the world could not surpass the unconditional love and unflinching support of the "Mother mo chroí"

To all the mummies, grans and great-grans, thank you for your selfless devotion, your generosity of spirit and your many sacrifices in doing so. And to all who are no longer with us you are in our thoughts and prayers forever and a day, but especially on Sunday. **Le grá and buíochas** to all of you from the smallies to the not so small who are indebted to you all of the time.

### Mothers Day 2024

Mother, mammy, mommy, mom, mum, mam and many more besides are some of the multi-terms of endearment for the life-giving wonder woman we have never not known. Three or thirty, five or fifty she is always on call with a built in radar that is timely and reliable. As solid as the rock of Gibraltar, constant as the north star and patient as Job himself she is ever loving, good humoured and supportive regardless of the circumstances. She is that maternal life force that lives side by side with us even after we fly the coup. From band aids to tea and sympathy she provides poultice and healing for all the ailments and turbulence that upset our daily lives. She is our mentor, teacher, advisor and confidante when needed.

Our Lady, Mother of Jesus Christ and everyone's mother was no exception to feeling all the mixed emotions and concerns of mothers everywhere. Having wrapped Him in swaddling clothes at birth she reared and nurtured Him thereafter. As He grew older and went about His Father's business she was not above chastising Him if He came home late or went AWOL on occasions. Worried like any mother, she surely shook her head at His lame excuses. He was "helping His Dad".

Just like Mary, mothers universally protect instinctively and care for their offspring from the moment of birth until she breathes her last. The indescribable bond that exists between mother and child is life long and many would say one that reaches far beyond. The great Paddy Kavanagh in his poem "In memory of my mother" describes her stacking hay to make a reek on the family farm in Monaghan when he was a child. But now she is smiling "down at us eternally" as she lives and is alive in his heart.
